The PERSPEKTIVE project...

... promotes job-related skills among inmates.

... develops innovative tools based on the findings of various previous projects.

... intends to make a further contribution to the reintegration of former prisoners.

... aims to facilitate access to society and the labour market.

... strengthens the motivation of prisoners.

... brings together 11 operational partners from Germany, Austria, Italy, Iceland, Greece, Romania and Türkiye as well as five associated correctional facilities.

The “Perspektive” project aims to utilise the full development potential in the area of offender reintegration. There is an opportunity not only to support prisons in their day-to-day work at a local level, but also to make a significant contribution to the exchange of experts at a European level. We have formed an international consortium, drawing on the experience gained from previous projects such as STEPS, NEXT STEPS and the state initiative Handwerk im Hafthaus. This consists of experienced players in the fields of public relations, psychology, business and more, who work together with prisons from various European countries.

GOALS

Creating perspectives.
Strengthening motivation.
Facilitating access.

Preparing prisoners for their reintegration by strengthening and developing social skills, which are also of great importance for professional life.

Strengthening the employability of former prisoners by reducing prejudices among employers, colleagues and other stakeholders in society.

Intensifying cooperation between various organisations from the business world and the prison system in different European countries.

RESULTS

PERSPEKTIVE-Handbook

Experiential education in the prison system. A handbook for the practice-orientated and sporty promotion of professional skills of prisoners.

PERSPEKTIVE-Magazine

Building bridges between society and inmates by providing insights into europe prisons, promoting personal stories and career prospects

PERSPEKTIVE-Network

Promoting the integration of prisoners into the labour market through Europe-wide exchange of experience and personnel networks in the prison system
